BROW DESIGN (45 min) \$50

Shape, wax and tint/stain brows

BROW LAMINATION (1 hour) \$85

Treatment to manipulate and soften brow hair to create a fuller, more defined brow. Includes brow tint

Permanent Makeup

MICROBLADING (2.5-3 hours) \$400

Is a form of cosmetic semi-permanent makeup aimed at enhancing the appearance of eyebrows. The process is done by creating hair like strokes with the use of a manual blade containing very small needles. These needles implant pigment into the bottom layer of the epidermis. The process includes a consultation to customize the shape and color expectations to compliment your face and the look of your new brows. We will numb the brow area as well to maximize comfort during the treatment as well.

Results can last from 1-2 years.

* Not recommended for oily skin types

OMBRE (Powder) Brows (3 hours) \$450

This treatment is a cosmetic semi-permanent tattoo process that uses a machine to create a soft powder brow or makeup look. Giving great definition and depth to the eyebrows, this technique is recommended for all skin types, but specifically anyone with oily or combination skin. This treatment is a little less invasive than that of microblading. Consultation, brow mapping, color selection and numbing included.

Results can last from 2-5 years.

COMBO BROWS (3-3.5 hours) \$550

Combination of semi-permanent makeup using microblading and ombre/powder brow technique. This is perfect for those with sparse eyebrows, little to no hair, or for those who simply want to add definition to their eyebrows. Consultation, brow mapping, color selection and numbing included.

Results can last from 2-5 years

PERMANENT MAKEUP TOUCH-UP (1.5 hours) \$150

A touch-up is recommended within 6-9 weeks from the initial appointment. Touch ups are essential as pigment fades over time due to various factors like skin type, after care and sun exposure.
